

To FCC,

I wish to oppose weakening the telephone privacy laws of Indiana by allowing business which I affiliate with to make unlimited, unnecessary calls. I believe that I should have the right not to be bombarded by advertisements through my phone line. I pay to have a telephone for my use and it is necessary these days for everyone to have a telephone, therefore it is not something that I can choose to do without. Please do not allow this to happen.

Sincerely, LaWana M. Burtnett
